

Rack Sentry®

RS75 CO2

The RS75 CO2 is the go-to rack protector for low beam applications. The product features a cutaway section allowing the rack protector to accommodate beams anywhere from eight inches to floor level.

Always on guard

Dependable protection

- Molded from a semi-flexible, stress-crack resistant polyethylene
- Patented air chamber deflects impact energy away from the rack
- Minimizes force of tow motor impact that can damage structural integrity of racks and floors

Easy to see

- Bright safety yellow
- UV stabilized plastic prevents fading
- Waterproof and easy to clean
- Chemical-resistant and non-conductive
- Easily removable for maintenance and rack inspection

Easy installation

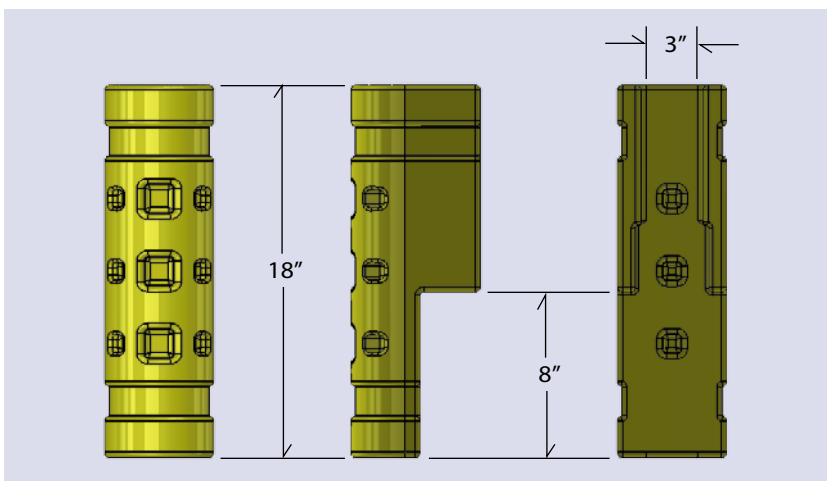

- No tools required
- Attaches to rack upright with hook and loop straps

Cheaper than repair or replacement

- Protects both inventory and structural integrity of rack system
- Installs directly to the rack upright eliminating need to drill into the floor
- Costs a fraction of rack, floor or inventory repair/replacement
- A one-time insurance investment

Always on duty

- Protects any rack under any condition
- Doesn't stay dented – pops back to original shape after impact
